## EXPERIENCE

### **DockYard, Remote** *User Experience Developer*

April 2018 - Present

Collaborate closely with in-house design and engineering teams to facilitate handoff between visual design and implementation.

Assist in scoping, estimating and planning for projects

### **Dynamix Web Design, Atlanta, GA** *Senior Front-End Developer*

April 2015 - September 2017

Engineer fully responsive web-based applications and software, using greenfield and commercial PHP based CMS systems.

Created and maintained company-wide front-end development standards.

Robust understanding of accessibility standards and practices for websites and web-based applications.

Scoped solutions for clients to determine effort required for implementation/integration of visual designs and mock-ups.

Collaboration with visual designers and back-end engineers on solutions.

QA support and ticket resolution for bug fixes.

Interviewed and performed code reviews for front-end developer applicants.

### **The Nerdery, Bloomington, MN** *Client Side Engineer*

April 2014 - March 2015

Responsible for building modular, accessible, and semantic front-end technologies such as HTML/CSS and Javascript.

Built web-based front-end solutions for a variety of commercial and open-source content management systems including Sitecore, Drupal, Wordpress, and Expression Engine.

Collaborated with back-end engineers on solutions on both LAMP/WISA/WAMP stacks.

## TECHNOLOGIES

HTML/CSS

Sass/Less

BEM

SMACSS

AngularJS

Git/GitHub

Grunt

MongoDB

Express.js

Node.js

SQL

JavaScript

jQuery

Built solutions leveraging SaaS technologies.

Provided support for maintenance projects as needed

**Thomson Reuters, Ann Arbor, MI**  
*Senior Technical Support Representative*

December 2006 - April 2014

Facilitate internal and external customers on difficult issues.

Mentor peers through peer evaluations and direct feedback.
